

# DISHINE

## HAND DISHWASHING CONCENTRATED DETERGENT

DISHINE is a concentrated viscous lemon scented detergent formulated to obtain a strong emulsifying action toward greases.

DISHINE is a neutral liquid and does not contain alkaline substances nor solvents so it may be used in the food industry. It does not leave greasy surfaces and it can be easily rinsed without leaving stains.

DISHINE is recommended for hand degreasing of dishes, cutlery, pottery, vessels, kitchen tops, equipment...

### INSTRUCTIONS FOR USE
